Learning Initiatives Necessary for Kids

Project Link is a local Non-For-Profit 501(c)3 organization. We are hosting a special event where all proceeds go to help area children, their families and educators receive recreation, training and consultation services they require in order to provide the best possible outcomes. One in every 91 children across the United States is diagnosed with this neurological disorder that robs children of functional communication skills, stunts their social and emotional development, impairs their senses and awareness of the world around them. You can help them reconnect!
